

Feature Your Aircraft

THANKS to page sponsorship by Hawker Pacific at Ardmore, KiwiFlyer is now featuring a range of the ZK Register additions in each issue. If you have recently added an aircraft to the ZK Register and would like to see it appear on these pages then contact us on 0800 535937 or editor@kiwiflyer.co.nz. Send us a photo and information about the aircraft design, the project if you built it yourself, why you chose it, your background, and anything else that KiwiFlyer readers might find interesting. We'll have space for up to six feature aircraft in each issue and look forward to hearing from you.

ZK-MST Titan T-51 Mustang

FOR DAVE HUGHES, owner of ZK-MST Titan T-51 Mustang, April has been a most auspicious month. ZK-MST has now made the final leap from work-in-progress to its new status of a 'real flying machine'. Dave's aircraft, built by the team at Campbell Aviation, has been fitted with a 150hp Suzuki V6 engine and 'Mini Merlin' Redrive, matched with an 82" 4 blade propeller by Vesta. It is currently undergoing its testing programme.

Dave, who lives in Te Anau chose for his T-51, the colours of the much admired P-51 Mustang 'Miss Torque', who had a wonderful history here in New Zealand and is remembered with affection particularly by Southland aviators.

ZK-SXY and ZK-CXY Sister SportCruisers

A PAIR OF the latest SportCruisers have just arrived at Aerosport Aviation. ZK-SXY is the new company demonstrator and will be seen at various Fly-in's and Airshows around New Zealand. Anton Meier from Aerosport expects to easily impress customers, particularly with "the little finishing touches that are being stepped up all the time".

ZK-CXY is a twin sister to SXY and is available for immediate delivery. CXY was formally the registration on the previous Aerosport demonstrator that is now being operated for flight training as ZK-DAR by AeroHire Limited of Tauranga.

ZK-HOV Safari Helicopter

DAN TYRRELL'S Canadian Home Rotors Safari Helicopter is just beginning

its test flying program. Dan has been involved in aviation for 35 years, at one time as owner of Coastal Helicopters and a flying school in New Plymouth. Dan chose the Safari as being "the best from an owner's point of view to maintain and fly", noting that the kit includes many aeromotive components.

Dan also once owned an engineering company and was able to do most of the fuselage and airframe construction himself, with the support of Bruce Belfield in Tokoroa, who is the Safari dealer for Australasia.

Power comes courtesy of an ex R22 engine with 1700 hours still to run. Dan intends to use a good many of those hours flying door to door between his home in Taranaki and his son's home in Motueka.

Here's Why Latitude37 Helicopters Are A Leading Helicopter Training Provider

"After taking trial flights with three flight schools, I was convinced Latitude 37 Helicopters best suited my needs: flexible, professional with a high safety ethic and extremely meticulous personal standards for both student and aircraft. I was continually pushed to better my ability and to be the best pilot I could be. Dave's teaching method is personalised - Adapting each student's learning style and this is applied to both theory and practical situations. No cost CD ROM notes and DVD's were also freely available to enhance learning. I have been completely satisfied with the professionalism, service & training provided. I would confidently recommend Latitude 37 Helicopters without hesitation; they surpassed my expectations in fulfilling my goal of learning to fly"

- Matt Crosby
