## New avionics upgrade available for Bell 206 owners

**HAWKER PACIFIC** have announced their development of a new avionics upgrade package for Bell 206 helicopter owners. An STC has been obtained for the system which includes an electronic primary navigation display, TSO146 GPS as well as other components from Garmin, Sandel and Mid-Continent Instruments.

The system is being marketed to aircraft operators who want to make use of the latest avionics technology to add enhanced situational awareness to their cockpit.

Steve Siddall, General Manager of Hawker Pacific NZ at Ardmore comments that the system also provides a good demonstration of Hawker Pacific's Part 146 design capability. Partial fitouts of this new system are available, as are other customised avionics solutions to suit the needs of operators.

Hawker Pacific welcome enquiries for this system or for any other avionics requirements. For more information contact Steve Siddall on 09 295 1630 or email: [steve.siddall@hawkerpacific.com](mailto:steve.siddall@hawkerpacific.com)
