Feature Your Aircraft

Thanks to page sponsorship by Hawker Pacific at Ardmore, KiwiFlyer can now feature a range of the ZK Register additions in each issue. If you have recently added an aircraft to the ZK Register and would like to see it on these pages then call us on 0800 535937 or email: editor@kiwiflyer.co.nz.

ZK-SML DynAero MCR 01 Club

ZK-SML is Geoff Smale's new two seat DynAero 'MCR 01' aircraft which was assembled and fitted out by Bryn Lockie of Leading Edge Aviation at Parakai. The letters MCR stand for Michel Columban (of Cri Cri fame) and Christophe Robin (Multiple French aerobatic champion and son of Pierre Robin of Robin aircraft fame). The 01 designate the 2 seat series and Club identifies the 6.9m wing span.

The DynAero Aircraft Company of Darois, France make a range of high performance Sports Aircraft which are able to be registered in Microlight and Experimental classes in NZ. There are now 4 DynAero aircraft in NZ – a long wing ULC, 2 Clubs and a 4S 4 seater.

Geoff's aircraft is a highly specified fly-away version with oleo suspension,

hydraulic CSU, ballistic parachute, long range tanks, a large glass panel and auto-pilot. It is powered with a 100hp Rotax engine but with the tuned lengths of 'spaghetti' exhaust pipes, achieves 110hp which gives a cruise speed of 145kts at 6000ft. Geoff explained it was the carbon/kevlar construction that interested him most about this aircraft due to the fact he has been involved with boats all his life from an Olympic level down.

ZK-REX RANS RV 7A

REX NEWMAN has a fondness of the RV aircraft with ZK-REX being the third RV that he has built. His latest completed its first flight on 8th August and is the 7A version which has a tricycle undercarriage. Rex says the flight went really well with only minor adjustments and fine tuning to be done. It is very similar to the other RV aircraft that he has built except for having a slightly roomier, two seat side by side cockpit and a greater load carrying capacity. It is powered by an IO-360 engine with a constant speed propeller delivering a 160kt cruise speed. Rex didn't supply a photo because he feels it "needs to be seen in the flesh", so look out for REX as he flys off the 25 hour restricted period.

ZK-KIG Solo Wings Windlass Aquilla

NEW to New Zealand, ZK-KIG is a Solo Wings Trike with an Aquilla wing originally manufactured by a South African company. It was then sold into Australia before being brought to Hokitika by owner Mark Ralfe.

This trike is powered by a Rotax 503 engine with a new propeller imported from America. Having only gone solo a few weeks ago Mark has already enjoyed 4 hours of "freedom" flying. He explains his flying as "like sitting in an arm chair flying along with nothing around you but freedom".

This aircraft design offers strength, stability, light handling and a forgiving wing which makes it suitable for both beginner and experienced pilots as well as a training aircraft.

HAWKER PACIFIC
Hawker Pacific NZ Ltd
NZ's one-stop Rotary and Fixed Wing maintenance facility all under one roof
Buying an aircraft? - We can bring it up to your requirements
See us for Assessments, Cosmetics, Avionics, Modifications, and Ongoing Maintenance Programmes to Suit Your Needs.
Selling an aircraft? - We can complete your preparations for sale
See us for Checks, Corrosion Control, Cosmetics, CoA, and more.
Avionics, Airframe, Engines, Hydraulics, Components... Genuine Beech, Cessna, Piper, and Helicopter Parts in stock.
